Majolica Glazes (Cone 05-04) Retail Price List

(Customers receive a 20% discount off of the prices listed below.)

Apply the Majolica white base by dipping or pouring (one coat only). The white base may also be applied by brushing on three (3) even, flowing coats. Allow the piece to dry between coats when brushing. Once the base glaze is dry to the touch, the Majolica colors are then painted on the base with one (1) coat. The colors are generally applied by brushing. One color may be layered over another. All Majolica glazes can be thinned with water for translucency or thickened with Epsom salt to increase opacity. Fire to cone 05 or 04.

Cat No.	Name	4oz	Pint	Gallon
