

# EXTRUDERS AND The Original St

**SC004**  
**4" Multi-shape Die**

16 basic shapes for pottery projects. Move from one shape to the next without ever changing the die.

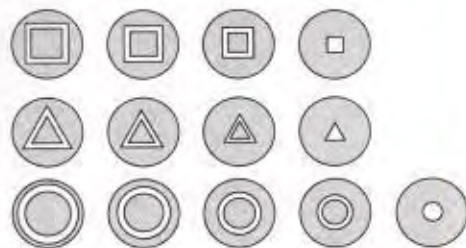

**SC003**  
**4" Handle Die**

8 Basic handle shapes in one cast aluminum die for 4" Extruders. Easy to adjust from one shape to the next. The die can be altered with a small file.

**SC008**  
**4" Blank Die**

Use this blank die to cut your own unique shapes.

**SC009**  
**4" Extruder Aluminum Die Kit**

24 pieces: 13 outer dies, 10 inner dies, and a cast aluminum inner die holder. Shapes include Round, Square, and Triangle. Outer Die sizes are 1", 1 1/2", 2", 2 1/2". Wall thickness of hollow extrusions are adjustable by changing the inner die. Now includes the 3" round hollow die.

**SC010**  
**4" Aluminum Expansion Box**

Cast Aluminum. Output dimension 6.5"x 6.5"

**SC013**  
**4" Aluminum Extruder**

Our most popular model. The aluminum barrel is removable from the backbar for easy cleaning and will not rust. Includes two blank dies.

**SC007**  
**4" Steel Extruder**

Our powder coated fixed barrel model. Includes two blank dies.

**SC012**  
**4" Expansion Box Slab Die Kit**

Cast aluminum expansion box die kit for slabs, will produce a 6" diameter round tube with a wall thickness of 3/8" or 1/2". To layout an 18" slab, cut tube down one side.

**SC011**  
**4" Expansion Box Wooden Die Kit**

Marine grade plywood inner and outer dies to make circle, square, and hexagonal shapes. Extrusion wall thickness 1/2". The Wooden Dies will make 6" diameter extrusions.

## CUT-OFF WIRE

**SC032**  
**The Easy Wire**

Easy one handed cut-off wire. Hold extrusion with one hand and cut with the other. Includes two wires: 10" and 22".

- Made in the USA.
- Extruders feature an easily removable barrel cap for quick die changes.
- Aluminum model extruders feature a removable barrel for fast clean up.
